Waterfront regeneration as a sustainable approach to city development in Malaysia S ... The discussion is based on an urban design study of all the state capital cities in Malaysia as well as a doctoral research that looks at the issue of waterfront regeneration in the Federal Capital City of Kuala Lumpur. The paper concludes by highlighting the impact of these rivers to the sense of place of ...

### **Waterfront regeneration as a sustainable approach to city ...**

AbstractThe waterfront is recognised as the zone of interaction between a city and a river. In Malaysia, waterfront developments were established when the country was first settled, mainly as a transport route and for trading. Waterfronts became more urbanised and commercialised from the early 1990's onwards. However, due to constraints such ...
